Course Overview

Foreign Exchange is a global decentralized Over-the-Counter (OTC) Market which is the deepest & most liquid of any Market today, across all Asset Classes. While anyone can - & does - participate, what matters is are you a price taker or a price maker? Are you participating to facilitate a transaction, or purely in the pursuit of profit?

- Geography of the Liquidity in the market
- Purchasing Power Parity. The Big Mac Index
- Spot vs Forward Foreign Exchange
- How do you forecast Currency movements?
- FX - Is it all a zero-sum game? Can it be considered as an Asset Class?
- Most popular Currency Pairs

Learning Outcomes

While everyone can participate in the Foreign Exchange Market at some point, (think Airport Bureau de Change) not everyone fully appreciates the scale of this Market & how the wide range of participants engage with it. The numbers may surprise you.
